Nearly 70 years ago, Gordon Bronleewe began to challenge the memorial industry to think outside of the box. Today, we are taking that challenge again as we look toward the future.

We are driven to always better our best as we continue product expansion in stone, with memorials, public art, signage, artist renderings and new technologies such as our Glass Art®.

The Values We Live By define who we are and why we serve you. The Values of Leadership, Service, Responsibility, Transparency, Care and Celebration are what connect us to you and your families. We are OM Stone ... but it's our people that make the difference!

A handwritten signature in black ink that reads 'Tim'.
